Crossville Regional Planning Commission

RE: FOSTER DIVISION
978 Fred Ford Road
Crossville, TN

Edna Foster would like to request one (1) variance for the above stated "Simple" Subdivision Plat.

1. Ms. Foster would like to request a variance to wave the requirement to include the "Certificate of General Approval For Installation of Subsurface Sewage Disposal Systems with Restrictions" on the face of the plat.

- Reasoning:

Lot 1 has an existing house and working septic system. It is my clients belief that there is no reason to burden the extra expense of paying a Soil Scientist to map extra soils and paying the local Environmentalist an evaluation fee along with an additional fee for inspecting the current septic system, when the lot already has a working septic system and enough ground to put in a new field line if needed.

Thank you,

Rusty Norrod, R.L.S. # 2635
