

To Whom It May Concern,

August 1, 2017

My husband and I have purchased property located on Wilson Lane. We would appreciate approval of the extension of main water and sewer lines to our property. Our plans are to build a home on track 5, for our family. We have a water tap at the end of the two lane Rd., as seen in the illustration. We are asking the city to run a main water line up Wilson Lane to track 5 and to move the existing water tap on our property. We are also requesting to run city sewer to track 5. We will purchase a sewer tap for our property. We have spoken with Kevin Dean and Billy Martin about this extension approval. We have a copy of the costs, including materials and labor; to be done by the city. Please contact me if you have any questions or concerns.
Thank you

Sincerely,

Jack and Brenda Banks
