

April 24, 2017

**RECEIVED**  
APR 24 2017

Ms. Sally Oglesby  
City Clerk

I hereby request connection to the city sewer system at outside city commercial rates. My property is located at 180 Cox Avenue and is shown on Tax Map 087, Parcel 091.14. My property consists of approximately 3.4 acres and is located within the Urban Growth Boundary adjacent, on the eastern side, to the current City Limits along the Industrial Development Board Property (Colinx) and on the northern side along the southern right of way margin of Cox Avenue. At the current time I prefer to remain outside the City Limits. However I would like to reserve the possibility for future annexation. My property currently has a failing subsurface disposal system. City sewer service is currently extended to my property and a tap is located on the northeastern corner of my property. I would like to connect to that existing low pressure sewer tap.

Sincerely,

William C. Douglas
