7. Other Business

a. Discussion and action on request for sidewalks on Dunn Ave.

Property owners on Dunn Ave., which runs from Interstate Drive to Matherly Street, have requested that the City install sidewalks, curb and guttering on the north side of Dunn Ave. They propose to contribute 50% of the raw material costs and dedicate the right-of-way. There are three parcels with two of them currently developed.

At the September 2014 meeting, Council accepted the City Manager's recommendation with the project to be ranked with other sidewalk projects. At the November 2015 meeting, this item was reviewed and deferred. Greg Barnwell stated the reason they wanted to have the matter re-considered is because East Tennessee has purchased the middle parcel. Randall Kidwell spoke on the neighborhoods that don't have sidewalks. Councilmember Souza stated the property owners should pay for all the materials.

A motion was made by Council Member Danny Wyatt, seconded by Council Member Jesse Kerley, that the project be deferred. The motion carried by the following vote:

c. Discussion and action on Centennial Park Trail

The Council previously authorized the "Friends of the Trails" to do some limited clearing of vegetation and to mark the proposed route for the trail on City property, all under the supervision of Tim Begley. This work is underway and a tentative route for a one-mile loop has been marked on City property north of the river. (The route needs to be adjusted to ensure that it remains on City property at all times and to optimize it for drainage, etc.)

John Conrad requested the Council to authorize construction of the trail, using volunteers, once the final route has been approved by Tim Begley. Mr. Conrad also requested the Council to authorize City staff to initiate negotiations for three easements to facilitate pedestrian crossing of the river (the Turner property, and either side of the river at Genesis Road). The cost is estimated to be approximately \$38,000 for the trail easements based upon the tax appraisals. This amount does not include legal fees.

A motion was made by Council Member Danny Wyatt, seconded by Council Member Pete Souza, that construction of the trail, using volunteers, be approved and City staff authorized to initiate negotiations for easements. The

This is basically financing the system at a rate of 3.74%. Staff recommended the approval of a contract with VEC. The electricity for the system is billed additionally.

A decision is needed quickly so that the equipment can be ordered and installation can start in August and be completed with minimal damage to the fields.

A motion was made by Council Member Jesse Kerley, seconded by Council Member Pete Souza, that a contract with VEC for the installation of the lighting system at the Warner Complex be approved, but that the cost be paid in full and not financed over ten years. Councilmember Kerley raised a point of order that Councilmember Souza comments about comments made in a previous meeting were not relative to the motion on the floor. Mayor Mayberry ruled the point was not well taken.

Councilmember Souza asked City Attorney Ridley if one person is allowed to speak on an unrelated item, if that allows others to do so. Mr. Ridley responded that the rules on comments by the Council are different than the rules for citizens. He also stated that a point of order must be made at the meeting, not on actions at past meetings.

A motion was made by Council Member Pete Souza, seconded by Mayor James Mayberry, that the standing rules adopted by March 10, 2016 be rescinded. The motion failed by the following vote:
