## **Airport Committee Meeting Report from FBO: April 3, 2023**

February Fuel Flow: 7,611 gallons  
Avgas: 2,977gallons  
Jet A: 4,634gallons

March Fuel Flow: 7,391 gallons  
Avgas: 3,502 gallons  
Jet A: 3,889 gallons

Last March Fuel Flow: 9,498gallons  
Avgas: 2,765gallons  
Jet A: 6,733 gallons

Fuel sales were down in March over February and down over last March primarily due to our based jet fuel customers not flying as much.

We flew 222 hours in Crossville for flight training, up over 50% from February. Training activity continues to remain strong at Crossville. We are coming to the end of the two-year contract with the CCHS and expect flying will drop off after the contract funds have been used up. Our overall flying across all locations remains strong with over 450 hours on the fleet.

The maintenance shop remains busy. As the contract flying slows down we intend on continuing to build our capabilities in maintenance to support general aviation aircraft. The demand for high quality maintenance exceeds the capabilities of the maintenance facilities in our area so we expect continued growth in maintenance.
