Jeff Johnson
Catoosa Utility Department
5581 Plateau Road
Crossville, TN 38571

In order to provide additional water service on Carson Lane, it is necessary to extend the main waterline from Carson Road, approximately 1,400 feet in the ROW of Carson Lane. *Please consider this a request for approval for this project.* I propose to provide the trenching work for the waterline, as well as *coordinating any easements that are necessary* and the City provide the labor and materials to install a 4 inch line.

Please present this proposal to the appropriate boards and call me if you have any questions at 931-979-0554.

Sincerely,

Fred Stout
