They found that other airports did not charge a security deposit, key or cleaning fee.*

*Based on the information provided, the Committee recommends that rates on all the hangars except the \$250 hangars be raised \$15 a month each of the next three years. Since the \$250 hangars were closer to market rate, the increase for those hangars was recommended \$10 a month, each of the next three years.*

This would affect the Airport Layout Plan for the next two years; however, these grants typically cover 95 percent of the cost. Applying for the grant would require letting the project for bid again at a later date according to grant parameters and could possibly garner no bids.*

**A motion was made by Council Member Scot Shanks, seconded by Council Member Rob Harrison, to apply for a grant (95/5) from TDOT Aeronautics to complete the airport obstruction project. The motion carried by the following vote:**
