Sally Oglesby
City Commissioners

I would like to request the City of Crossville waive the sewer tap fee for 55 Creekway Circle.

When the city ran sewer in Greenbriar (1998 I think) the crew installing the lines got outside of the easements on my property.

It has been way too many years ago for me to remember all the details but according to some of the minutes Sally was able to find I was compensated for the mistake in 2000.

I was also told that when I was ready to hook on to sewer I would not have to pay a tap fee. Maybe by the city manager at the time. (Hugh Walker ??)

I have been paying a sewer fee for close to 20 years now without ever having used it.

Thank you for your consideration.

Paul Conathan
