SUBJECT: Engineering Services Proposal  
Holiday Hills Abutment Project

Dear Ms. Oglesby:

TARE, INC. proposes to supply necessary field and office civil engineering services to facilitate the construction of road and sewer infrastructure that will improve residential lots along Iris Circle, Westheria and Narcissus Streets. It appears from available maps that the project will involve 56 lots but not 56 owners due to multiple lot ownership.

Services to be provided will include field and office work that will result in engineering design of the road and sewer and completion of detailed plans and specifications adequate for construction. Services will also include submittal of the sewer plans and specifications to the State of Tennessee for approval and preparation of bid packages for road and sewer work to allow contractors to determine the actual construction cost.

The estimated cost of the project is:

Road Construction - \$176000

Sewer Construction - \$55000

Engineering - \$ 8900

Total - \$239900

Sincerely,

TARE, INC.

  
T.C. Miller, PE, RLS, BCE

President
