

The Honorable RJ Crawford
Mayor of the City of Crossville
392 N.Main St.
Crossville, Tennessee 38555

Dear Mayor Crawford:

On behalf of the Cumberland County Industrial Development Board, I am writing to formally request \$25,000 to support current and upcoming development-related expenses.

As activity within Cumberland County continues to increase, the Board has experienced and anticipates ongoing costs associated with both active and prospective projects. These expenses include attorney fees and other professional and project-related costs that naturally accompany the recent uptick in development interest within our market.

The Industrial Development Board fully anticipates receiving proceeds from the sale of the Spec Building currently under construction on Interchange Drive. Upon receipt of those funds, the Board will reimburse the City for this request at the earliest possible opportunity.

We value the strong partnership between the Industrial Development Board and City of Crossville leadership and remain committed to working collaboratively to foster responsible growth and long-term economic development for our community. We appreciate your continued support and look forward to working closely with you now and in the future.

With respect,

Joe A. Salvato

Board Chair
