Re: Bid Proposal

Dr. Miller:

The Crossville Fire Department solicited bids from several vendors for NFPA compliant Technical Rescue/Wildland personal protective clothing (Rescue Bunker Gear). We received a sole bid from North Alabama Fire Equipment (NAFECO) for \$534.00 per set. We seek to purchase 45 complete sets at a total cost \$24,030.00 to come out of budgeted funds in line item 42200-325. We hope to utilize this gear in effort to extend the life of our current structural fire protective clothing from three year to five year replacement.

We recommend the bid be awarded to NAFECO and that you present to Council for approval in the regularly scheduled May meeting.

Chief Mike Turner
