

APPLICATION AND AGREEMENT FOR COST-SHARE ASSISTANCE

between

TDA 319 Nonpoint Source Grantee	Obed Watershed Community Association			and
Name of Cooperator <small>(please print)</small>	City of Crossville	Date of Application	7/22/2019	
Mailing Address	392 N. Main St	Daytime Phone /Email Address	931-484-5113	
City, State, Zip Code	Crossville, TN 38555	Farm/ Tract Number or Physical Location of Project Site	Little Obed River downstream from Genesis Rd	

Terms of Agreement

- The Tennessee Department of Agriculture (TDA) provides funds through the 319 Nonpoint Source Grant Program to the Grantee for cost-sharing with cooperators on a reimbursement basis to establish Best Management Practices (BMPs) for the control of nonpoint source pollution and improvement of water quality. For most BMPs, cost estimates will be at or less than the USDA-NRCS State Average Cost List applicable at the time of application for the location of the BMP. Similarly, BMPs will generally conform to the design standards of the NRCS Field Office Technical Guide and the Guidelines of the TDA Agricultural Resources Conservation Fund, where applicable.
- The Maximum Cost Share Amount offered by the Grantee through this Agreement is indicated in Item 8 below and depends on the stream designation for the stream that will be improved. The Grantee will provide 60 - 75% of the actual cost of establishing the BMP, or up to 85% of the actual cost of BMPs in impaired watersheds, or the Maximum Cost Share Amount, whichever is less. The portion that is the cooperators responsibility may be met in cash or in-kind support for the BMP installation. Cost estimates are provided by the Grantee prior to acceptance of the project.
- I agree to protect the integrity of the BMP by not changing the use of the riparian zone and flood plain, by not removing trees or other planted vegetation designed to stabilize the project area. I understand that this restriction does not prevent activities designed to protect the effectiveness of the BMP treatments, for example, removing fallen trees from the stream or from fences. If I sell the land, I agree that this same expectation of not disturbing the BMP will be made a condition of the sale or transfer by securing the agreement of the new owners to the terms of this Agreement. I agree that if I choose to remove native vegetation from the riparian zone of the project area or otherwise reduce the effectiveness of the BMPs, I shall reimburse TDA a pro-rated amount for any shortened life of any practice.
- If I accept cost-share assistance from the Grantee, I agree that neither the Grantee nor I will be liable for any damage to the other's property or personal injury resulting from the implementation of the BMPs listed below.
- I agree that the Commissioner of TDA or his designee; or if applicable, the NRCS State Conservationist or his designee; or the Grantee or their employees may periodically enter my property for the purpose of determining compliance with this Agreement.
- Based on the above, I hereby request cost-share for the following BMP(s) listed below and all work described in more detail in the project description:

BMP Name	Quantity/ Dimension*	Location/ Field No.	Life Expectancy, years	Cooperator's Initials
----------	----------------------	---------------------	------------------------	-----------------------

*Please list the number of each type of BMP to be installed and the estimated length or area covered by the practice, as applicable.

Clear Invasives from banks, and 30' buffer,	2750 feet stream length		variable	
Plant banks where needed	2750 feet stream length		indefinite	
Remove large downed trees from stream (debris dams)	2 sites		unknown	
Install cedar revetments with rock toes at eroding and undercut banks	434 feet revetments, 494 feet rock toes		20 yrs	
Install rock vanes and barbs	3 rock vanes an 2 barbs		indefinite	
8. Total Estimated Cost	Maximum Cost-Share Amount	Agreed Upon Reimbursement Rate	Cooperator's Initials	
\$28,777	\$24,461	85%		

I hereby agree to the Terms of Agreement listed above.

Signature of Cooperator	Date
-------------------------	------

This application is approved for cost-share assistance based on the terms agreed to above.

Technical Representative for Grantee	Date
TDA Watershed Coordinator	Date

Signature below indicates that the Grantee agrees to implement the project as described above within the budget outlined and not exceeding the Maximum Cost-Share amount given above.

Financial Representative of Grantee	Date
