### SUMMARY:

The City has had a joint funding agreement with USGS for a number of years for a stream gage on Basses Creek that fulfills one of the requirements for the water harvesting line permits. The extension of this agreement will be through December 31, 2020 when the requirement terminates. USGS will provide \$21,258 and the City will provide \$26,192 over the term of the agreement. We have not received the agreement at the time of this write up, but have been told that the funding would remain the same as stated above.
