### Fire Dept. Training

**SUMMARY:** The Crossville Fire Department requests your approval of MTAS OSHA required Confined Space Rescue Operations/Technician training for Agency Rescue compliance. The class will consist of 40 hours of lecture and hands-on skill training in confined space rescue operations. All full-time personnel (26) will be certified to the operations level and the special operation team members (20) will be certified to the technician level. MTAS will provide the following:

- Two instructors for 5 days
- All class materials
- OSHA certificates of completion
- Use of MTAS technical rescue cache
- Pre-course technical assistance and site visit
- NFPA compliance documentation
- Course Completion certificates from University of Tennessee

**Course cost:** \$1,400.00 per day for 5 days for **Total of \$7,000.00**

We solicited written quotes and received two additional from comparable providers. Rescue Tech 1 training came in at \$8,460.00 and Texas A&M University came in at \$16,108.00.

We recommend awarding the contract for training to University of Tennessee MTAS who provided the lowest cost.
