Approval of contract for services regarding Meadow Park Lake Expansion

SUMMARY: Davey Resource Group (DRG) has submitted the attached proposal which basically provides services to reduce the amount of mitigation required by the Tennessee Department of Environment and Conversation. DRG will achieve this by compiling data, analyses and developing a document that will justify the lowest impact tier by utilizing scientifically defensible reasoning.

Kevin Young, with J.R. Wauford & Company, and the Director of Engineering recommend the approval of the proposal at an amount not to exceed \$49,850. This includes a twelve-month warranty period suggested by the City Attorney.
