Approval to purchase drum screens for debris removal

SUMMARY: The City has two Parkson drum screens located at the sewer treatment plant. The drum screens are very valuable to the waste water treatment process and both screens are in need of repair. The attached quote from Parkson in the amount of \$7,287.00 will yield parts to repair the screens. This purchase is considered sole source because the screens are proprietary. The Waste Water Treatment Plant Superintendent recommends the purchase of the parts from Parkson in the amount of \$7,287.00.
