 - New state law that goes into effect on July 1, 2023 will require an official dedicated section of all Planning Commission agendas be set aside for Public Comment. Staff is currently working on an official requirement for the Planning Commission to adopt that will be inline with the policy already in place and used by the Crossville City Council. The City Clerk is scheduled to attend a meeting to become better informed on the full requirements of the new law. As of now, the Planning Commission needs to make a motion and approve the addition of Public Comments to be on all agendas moving forth. Once Staff has created the official requirements, the Planning Commission can choose to adopt those requirements for Public Comments.
