Leak Detection Proposal

SUMMARY: The City requested proposals for Leak Detection Survey. Six proposals were received. The proposal involves performing a system wide leak detection survey on approximately 213 miles of water main, which includes approximately 896 fire hydrant assemblies and approximately 2,354 gate valves. Utility Maintenance Supervisor reviewed all proposals and recommends Rye Engineering in Erin, TN as the best and lowest proposal at a contract price of \$27,477.00. It is anticipated that water loss will decrease once the project is completed and leaks are repaired.

BUDGET ACCOUNT: 413-52140-290

NECESSARY COUNCIL ACTION: Approve contract as recommended with Rye Engineering at a lump sum price of \$27,477.00
